

Save Your Parish

Parish Partnership

What you get

Books at wholesale, plus three things that come with any order of 100 or more:

A 20-minute call before the books arrive. We talk about your parish specifically: where you'd start, what to expect, what usually goes wrong in the first month.

The Parish Leader Kit. Bulletin copy, pulpit announcement text, and a short guide for whoever's coordinating distribution. Everything written for you so nobody on your staff has to invent it.

A resource page for your parishioners linked from the back of every book. It gives readers somewhere to go the moment they finish.

Ways to make this order more effective

One 20-minute conversation before delivery. It's the single biggest predictor of parish success.

One mention from the pulpit and/or in the bulletin. One announcement from you does more than anything printed on the cover — because it signals this matters to the parish, not just to whoever handed it out.

Email check in 30, 90, and 180 days for ongoing support. You can reply in a sentence. I do this because I want to know what works and share what has worked for other parishes.

What this is not

Not a program, curriculum, or ongoing subscription. The purpose of this book is to create grassroots movement at your parish that turns it into an evangelizing force in your community. My goal is to create as little overhead work for you as possible.
